

MAKES IT HAPPEN

999 IDEAS HUMBAUR EVERY POSSIBILITY

humbaур.com

35 years of Humbaур A success story

From a trader in agricultural machinery to one of Europe's leading trailer manufacturers

It all started with a dealership for agricultural machinery. But selling was not enough for Anton Humbaур. In 1984/85, the innovative entrepreneur started production of passenger vehicle trailers for private and commercial use. His firm belief was to orientate development directly towards his customers' wishes. This strategy took off. As a result, a modern production site was set up in Gersthofen in 1980. The Humbaур passenger vehicle trailers were a sales success and the product range has been continuously expanded since then. With the production of horse trailers in 1998, the company hit the bullseye in the market. Today, these horse trailers are among the highlights of the Humbaур family of trailers. Since 2001, the spacious new company premises at Mercedesring 1 in Gersthofen have fulfilled all the requirements of a production site for the future.

Tradition meets innovation – ready for the 21st century.

We focus on the future, because our company's previous success is both a commitment and an incentive. Our belief remains the same. We are guided by our customers' product requirements. This is how we perfect the utility of our trailers. We are continuously driving the development of new materials and manufacturing techniques and use them where it makes sense and where it contributes to

improvement. Comprehensive recycling is just as much a part of our sustainability strategy as modern corporate management. Our goal is to further optimise our diverse range of products. Every customer must receive the ideal product to suit their needs. That is our challenge for the coming years. We want to do something extraordinary. So that you too become a follower!

LOGO DEVELOPMENT (1957-2021)

35 years of Humbaур ISO-certified quality

Experts create quality

With more than 420 series models from 750 kg to 55 t total weight, our product range places the toughest demands on our technology, production and sales employees. It is essential that we perfect our processing techniques for different materials. Our individual production areas interact to produce, for example, aluminium car trailers, steel and aluminium three-way tippers, flatbeds, horse trailers with wooden, aluminium and full-poly bodies or box trailers with sandwich panel walls. Around 1200 vehicles leave our factory in Gersthofen every week. That's about 60,000 units a year. This can only be achieved by experts who have the best know-how and are highly motivated. Today, around 600 employees work at the Gersthofen site. In 1985, there were only 10.

**Bavaria is our home –
but we are always close to you!**

Your local contacts

Tradition trifft Innovation – bereit für das 21. Jahrhundert.

Together with our partner network, we provide comprehensive local support for all your transport problems. Together, we will find the right solution for your transport requirements and will take care of servicing and repairs. Our service includes reasonably priced repair options, as well as the long-term availability of spare parts so that you can enjoy and use your trailer or vehicle body for years to come.

The milestones

1957

Anton Humbaer sets up a dealership for agricultural machinery in Donauwörth. The range of products includes trailers, ploughs and grain mills.

1980/81

In 1980, the company moves to a newly built warehouse with offices in Gersthofen. In the following year, the first passenger vehicle trailers are sold. Humbaer imports them from Italy and adapts them for the German market.

1984

In 1984, the company starts to produce its own passenger vehicle trailers.

1995

Further investment in buildings from 1985 to 1995

2001

Building of and move into the office and production buildings (22,000 m2) on Mercedesring in Gersthofen.

2003

Opening of the Humbaer factory outlet at the trailer centre in Gersthofen.

2006

Launch of the curtainsider semi-trailer, the Humbaer "Big One".

KÖGEL 2009

Ulrich Humbaer acquires the semi-trailer manufacturer Kögel and now, with both companies, covers the needs of the entire trailer market. The brands are kept separate.

2016

Introduction of the FlexBox box bodies for transporting dry, refrigerated and frozen goods.

2018

Introduction of new box trailer models with sandwich panels manufactured in house.

2020

Delivery of the one-millionth Humbaer trailer.

1978/79

Anton Humbaer decides to include new products in the sales range.

1982

In 1982, Ulrich Humbaer, the current managing director, joins the company.

1985

Company name of Humbaer GmbH since 1985. Since 1989, Humbaer has continuously expanded the production of trailers for private and commercial use.

1998

Production of horse trailers starts.

2002

Introduction of the heavy-duty range. Entry into the air-braked sector.

2005

Building of a second production hall in Gersthofen with state-of-the-art production technology over more than 23,000 m2.

2007

Development of a European service network. Acquisition of the polyester supplier NCK and rebranding as Polynova GmbH & Co. KG.

2013

Presentation of the new generation of Humbaer horse trailers: Balios®, Xanthos®, Zephir® and their AERO models.

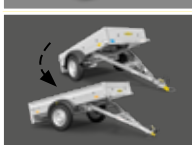

2017

Introduction of the horse trailer top model Maximus® Deluxe.

2019

Introduction of the Steely DK and Startrailer DK.

37

More than 37 years of Humbaar is a reason to celebrate! Since 1985, Humbaar has established itself successfully in the German market and is one of the leading trailer manufacturers in Europe.

350

More than 350 Humbaar dealers form a comprehensive service network in Germany. For our customers, this means that there is always a Humbaar contact right on their doorstep.

600

600 skilled employees at one production site in Germany manufacture our trailers.

1,1M

More than 1 111 111 Humbaar trailers have left our factory since 1985 and found their way to our customers. This figure spurs us on!

160 M

Success that can be shown in figures. In 2020, sales at Humbaar GmbH increased to over 160 million euro.

Series 1000 Wheels-in trailers & flatbeds

The small, strong models – ideal for gardening, trade and hobbies. From 750 kg to 1.5 t total weight.

From collecting bark mulch in spring and quickly returning the scarifier, to picking up new plants or loading up with leaves – passionate gardeners appreciate everything their Humbaur can do. Even small or occasional transport jobs are easy and straightforward. Taking the motorbike to the racetrack, bringing barbecue equipment to a club festival or picking up new furniture at short notice. No problem, if all you need to do is get the trailer from the garage. These small, strong models can be seriously loaded up. This is particularly appreciated by contractors who want to drive a machine quickly to

the next construction site or deliver products. That's because Humbaur single-axle trailers are robust, maintenance-free, flexible and can be converted with just a few simple steps. The extensive range of accessories has got the lot. A reliable safety package ensures the best driving characteristics and excellent road handling.

**So hook up your trailer and let's go.
That's HUMBAUR!**

Series 2000 Wheels-in trailers & flatbeds

The ideal partners for day-to-day professional use.

From 2 t to 3.5 t total weight.

Professionals value reliability. Daily operations demand functionality, practicality and flexible application options. Nothing can be left to chance when transporting valuable machines safely from one location to the next, or delivering products and materials. Humba professional trailers are ideal for companies where rapid transport is part of everyday business. Easy handling, clever functions, individual conversion solutions and the highest-quality materials are guaranteed, even for the toughest applications. And when the work is done, Humba professional trailers are quick and easy to clean. The tandem construction ensures stability in road traffic and the trailers are very easy to manoeuvre.

The model series

HA ALU | HN ALU | HT ALU

Series 3000 Tippers & transporters

Always hard-working in the garden or on the construction site. From 1.3 t to 3.5 t total weight.

These are the Humbaour professionals for extreme applications. They can carry heavy machinery as well as transport construction materials. Unloading is simple thanks to a sophisticated tipping system that has been tried and tested in practice. The electric hydraulic pump is especially convenient. Tip the load right where you want it at the touch of a button. With the appropriate bodies and accessories, Humbaour tip-

pers and transporters are transformed into true miracles of convenience. Craftsmen, as well as tradesmen in construction and in garden technology, are thrilled by the wide range of transport options and the high-quality finish and equipment. The extensive range of accessories ensures that everyone can configure their own custom trailer.

Series 4000

Vehicle transporters

Motorcycle, vehicle and universal transporters.

From 750 kg to 3.5 t total weight.

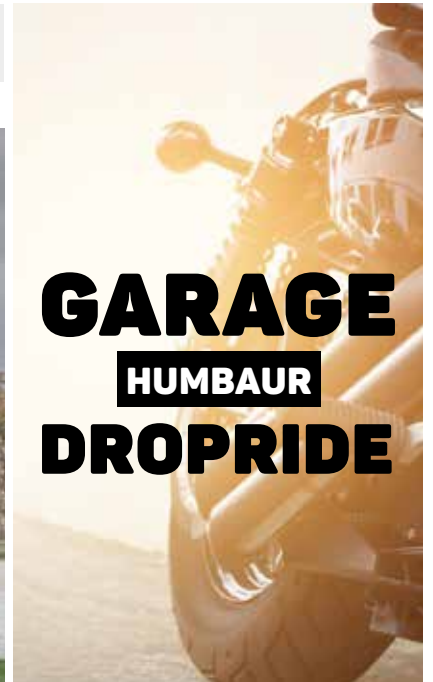

These vehicle transporters can shoulder any load. In only a few steps, motorbikes are conveniently and securely lashed for a trip to the mountains. The flat ramp angle is no obstacle, even for small vehicles. Lower and tilt the loading area for effortless loading and unloading. But flatbed and wheels-in technology can do so much more. The multifunctional accessories ensure you always have the right transport solution

on hand. We build on our technically superb base models to meet your individual requirements. Whether you are a supplier who wants to deliver products safely to customers or you are transporting valuable vehicles, your Humbaур guarantees maximum flexibility, safety and convenience in every area. And easily damaged vehicles can be protected by tarpaulins or transported in a full-poly trailer.

Series 5000 Box trailers

For protected transport of goods,
fresh food deliveries and mobile sales.

From 1.3 t to 3.5 t total weight.

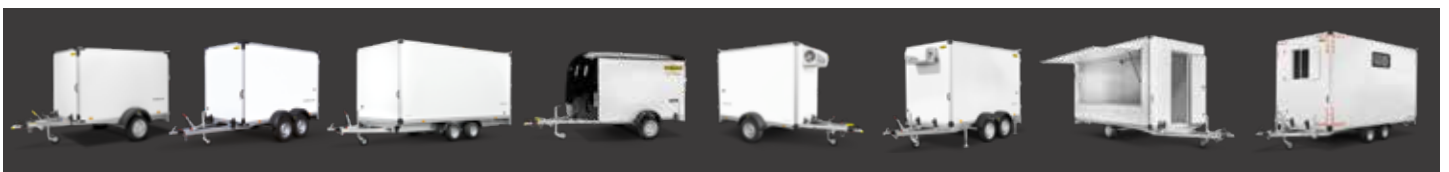

Our closed box trailers provide perfect protection for sensitive products. Sensitive goods must be kept dry and safe during transport. There is no room for compromise. This is true of high-tech devices as well as goods that need to be protected from moisture. Naturally, these trailers also provide an enormous amount of storage space and flexible loading and unloading options. Humbaур sales trailers are a miracle of compact

design. Simply open them up and you're ready for business! They're full of clever details. The highest-quality materials ensure perfect hygiene where foodstuffs are used. And we won't leave your customers out in the rain either. The sales flap forms the perfect roof over their heads. Another cool option: our cool trailers for refrigerated transport. The cold chain will always remain unbroken. Nothing will spoil.

Series 7000 Horse trailers

The wide variety of models leaves nothing to be desired when transporting your horses. In wood, aluminium or full-poly construction.

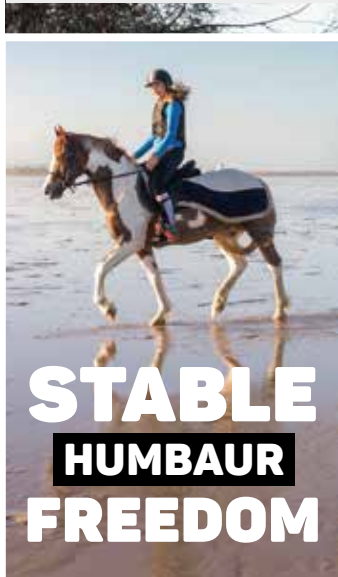

Our range includes a huge variety of trailers for man's finest companion. Because when transporting horses, perfection is required. Comfort, well-being and a safe atmosphere are indispensable for both humans and animals. Special materials and upholstery protect against possible injury during loading and driving. The entrance ramps and interior space are designed to suit the anatomy and behaviour of horses. We draw on well-founded advice from professionals in the field.

The range of accessories is as varied as horse breeding, horse sports and horse riding itself. This enables you to adapt your horse trailer to your horses' individual requirements. And of course to your own. The integrated saddle compartment has room for everything you need. A smooth driving experience, optimum safety and stability on the road add up to comfort for your horse and for you.

Series 7900 Livestock trailers

For the safe and gentle transport of your livestock.

Available in wood or aluminium versions.

Species-appropriate livestock transportation requires a high level of expertise. Extensive livestock handling experience and functional livestock trailers ensure stress-free and suitable transportation. Loading is an unusual situation for the livestock. Shallow step-up angles and an extremely low loading height are ideal for easy loading. Just as essential are the easy-to-use and variable elements that can be converted in no time. Often, you have to move quickly to avoid stressing the livestock. Close the trailer and you're off. Smooth handling and stability on the road guarantee trouble-free transportation. Humbaaur livestock trailers have optimum suspension so that the livestock will hardly notice any bumps and dips in the road. The materials of the livestock trailers are robust, indestructible and easy to clean.

Series 10000

Construction trailers & flatbeds

The variable all-rounder for all heavy-duty transportation tasks. From 5 t to 55 t total weight.

Tough and extreme in every way, these are the Humbaer heavyweights. When it comes to transporting large construction machines, implements and materials, they are straightforward and reliable. The solid ramps, flat ramp angles, retractable rear axles and rear supports are ideal for loading excavators or wheel loaders. High payload capacities are guaranteed by the low tare weight of these trailers. Sand, gravel, spoil or other bulk material can be safely transported on the Humbaer three-way tipper. The tried-and-tested tipping functions make accurate unloading

straightforward. Extra-wide tyres exert low ground pressure. You won't get stuck, even on difficult terrain. These trailers offer good driving characteristics, smooth running and perfect stability on the road. Extreme operating conditions require perfect vehicle components. Robust, indestructible and durable.

Series 11000 Shipping trailer

The perfect partners for the tough day-to-day shipping business. From 5 t to 11.9 t total weight.

The professionals in the transportation industry – well-engineered down to the last detail. We develop individual custom designs based on four basic models and adapt them to your requirements. Time is the number one success factor for logistics companies. And flexibility is the key. Freight can be loaded from the side, rear and even from above, depending on the loading situation. The absolute highlight is the Hum-

baur through-loading function. Load freight directly into a truck from the trailer. This saves time and is much easier. Say goodbye to the time-consuming coupling and uncoupling process. The highest-quality materials and vehicle components guarantee a long service life and exceptional load-bearing capacity. Great driving comfort and optimal safety at a professional level. Ideal for continuous everyday use.

Serie 50000 Box bodies

The FlexBox – the variable transport solution for all common van and truck chassis.

The Humbaer FlexBox is ready to face the challenges of the future in distribution transport. The FlexBox is individually adapted to the vehicle and tailored to your requirements. It fits on all common chassis up to 16 t GVW and is also suitable as a through-loading unit in combination with a trailer. It offers a high degree of flexibility and comes in a large number of variants that enable the optimum configuration to be found for any load. Whether transporting dry freight, fresh goods or a freezer box trailer, the FlexBox handles all transport tasks with ease. It is helped in these tasks by standard lashing points with 800 daN lashing force, but also by a huge number of optional load securing rails on the walls, as well as the ramp, liftgates and through-loading systems. The FlexBox is also available as a weight-optimised lightweight version with extremely high payload on a bolted aluminium frame. FlexBox – the perfect solution for all demanding transport tasks in distribution transport.
